

# Panda — MVP Requirements & Developer Task Plan

---

## Goal

Make cross-border buying organized, transparent, and safe — without touching money yet.

## User Types

- Buyer
- Supplier
- Panda Admin / Moderator

## Core Features (MVP)

- RFQs — create, respond, attach specs and images
- Orders — convert RFQ to order, track statuses
- Documents Hub — upload, tag, and search documents
- Live Verification — structured checks, screenshots, and decisions
- Timeline / Activity Log — every action recorded for accountability

## Out of Scope (For Now)

- Wallet / payments handling
- Escrow
- Refunds & payouts
- Insurance

## Developer Task Plan

- Phase 1 — Foundation: Auth, roles, database schema
- Phase 2 — RFQs module
- Phase 3 — Orders module
- Phase 4 — Live Verification workflow
- Phase 5 — Timeline + notifications
- Phase 6 — Review, permissions, deployment
