

# PANDA — Polished MVP Prototype Overview

This document summarizes the visual polish applied to the MVP prototype. The goal is clarity, trust, and simplicity — without overdesigning.

## Design Principles

- Clean white backgrounds and soft grey structure
- Emerald/green accents as primary brand color
- Rounded corners and generous spacing
- Clear typography hierarchy
- Simple buttons with consistent meaning

## RFQ — Key Improvements

- Clear RFQ list with status chips and filters
- Guided step-by-step RFQ creation
- Supplier quote cards with highlights
- Comparison screen that clearly shows differences

## Orders — Key Improvements

- Summary card at the top of each order
- Tabbed layout for milestones, documents, verification, and timeline
- Progress-style milestones
- Readable, vertical timeline history

## Live Verification — Key Improvements

- Verification center linked to each order
- Friendly request form with checklists
- Supplier upload screen with clear safety guidance
- Buyer review page with structured decisions
- Permanent verification history

This prototype is intentionally simple. It is designed to prove the concept, reduce confusion, and give developers a clear reference before coding.
